SURPLUS → SERVED · BRAND FOUNDATION

02. Brand

A clear identity for a kinder, more connected food future.

Our brand brings together people, food and purpose — making it easy to rescue surplus food and get it to those who need it, before it goes to waste.

1. Brand Identity

Our logo represents a simple idea — good food in motion.

Primary Logo (Horizontal)

Surplus → Served
GOOD FOOD LIVES ON

Stacked Logo

Surplus → Served
GOOD FOOD LIVES ON

Icon Only

2. Brand Idea

The core thought that inspires everything we do.

Move good food, before time runs out.

Fresh food. Brighter people. Stronger communities.

3. Mission

To make surplus food easy to share with people who need it, reducing waste and strengthening local communities.

"A simpler way to feed people and a healthier planet."

4. Brand Personality

A balanced personality that feels human and dependable.

Human	Urgent	Trustworthy	Hopeful
Real people. Real care.	Act before it's too late.	Safe, transparent and reliable.	A brighter tomorrow.

WE ARE	WE ARE NOT
✓ Compassionate	✗ Judgmental
✓ Action-oriented	✗ Slow or passive
✓ Transparent	✗ Charity-centric
✓ Community-driven	✗ Overly promotional

5. Brand Promise

Every surplus has a next table.

More food on plates.
Less waste in the world.

6. Audience Relationship Model

Different people. A shared purpose.

Donor	Volunteer	Platform	Receiver
Function halls, hostels, caterers, homes	Bridges pickup and delivery	Matches, tracks and enables	NGOs, shelters and verified individuals

GOOD PEOPLE KEEP FOOD MOVING

7. Voice & Tone

How we communicate across the product.

Principle	In practice (UI examples)
Clear over clever	12 meals nearby
Warm over sentimental	Pickup in 18 min
Action-oriented over alarmist	Food saved
Respectful over charity-centric	You're helping it reach a table.

8. Signature Visual Language

Distinctive elements that make our brand recognizable.

Movement Thread
The → shows food in motion.

Leaf Motif
A simple symbol of freshness and life.

Organic Shapes
Warm, human and approachable.

Time & Freshness
A subtle reminder to act soon.

Real Food Imagery
Authentic, honest and local.

9. Logo Rules

Keep our logo clear, consistent and impactful.

Clear Space

Minimum Size

24px (digital)
10mm (print)

Approved Backgrounds

Do

Don't

10. Brand Principles

Core beliefs that guide our decisions.

Rescue first
Give good food a second chance.

Trust by design
Safety, transparency and verification.

Local by default
Stronger communities start nearby.

Every action counts
Small actions. Big collective impact.

BRAND STATEMENT

Good food should keep moving.

PEOPLE
FOOD

12. Resources

Good food brighter tomorrows.

03. Colors

A palette inspired by fresh food, nature and communities.

Our colors reflect freshness, trust, warmth and action. They help create an experience that feels hopeful, human and sustainable.

FRESH · TRUSTED · WARM · INCLUSIVE · IMPACTFUL

1. Primary Colors

Our core brand colors. Use these consistently across key UI elements.

Leaf Green	Sage Green	Harvest Orange	Tomato Red
#1F6B4A	#4CAF7A	#E39A1F	#C2402B
Our primary brand color. Represents nature, health and positive action.	A lighter, friendly green for secondary use and highlights.	Represents energy, hope and the joy of sharing food.	Used for alerts, important actions and emphasis.

2. Neutral Colors

Used for backgrounds, surfaces and text.

Ink	#15211B	Primary text color.
Ink Soft	#4A574F	Secondary text.
Surface	#FAFBF7	Main background.
Surface Alt	#F2F4EE	Secondary surface.
Border	#D9E1D6	Dividers and borders.
Muted	#A3B1A7	Disabled text and icons.

3. Semantic Colors

Functional colors for consistent meaning across the app.

Success	Error	Warning	Info	Focus
#16A34A	#DC2626	#D97706	#2563EB	#7C3AED
Completed actions, positive feedback.	Errors, issues and critical alerts.	Caution and important notices.	Informational messages.	Focus states and interactive elements.

4. Gradients (Optional)

Subtle gradients for premium, modern feel.

Nature Gradient	Sunrise Gradient
#1F6B4A → #4CAF7A	#E39A1F → #F6C453
For hero sections, CTAs, and key highlights.	For accents, illustrations and special highlights.

5. Color Tints & Shades

Use tints and shades for different states and hierarchy.

900	700	500	300	100	50
#0E3D2C	#1F6B4A	#4CAF7A	#A7D5B9	#E6F3EC	#F4FAF7

6. Usage Examples

How our colors work in real components.

Donate Food →	Find Nearby	Learn More	Food request expired
Primary CTA (Leaf Green)	Secondary CTA (Sage Green)	Accent Button (Harvest Orange)	Alert Message (Tomato Red)

7. Color Combinations

Accessible and harmonious combinations.

Primary	Warm	Alert	Cool
Trust and nature.	Energy and optimism.	Attention when needed.	Information and clarity.

8. Accessibility

We ensure sufficient contrast for readability (WCAG 2.2 AA).

Aa	Aa	Aa
Good Contrast Passes AA (4.8:1)	Good Contrast Passes AA (5.1:1)	Low Contrast Does not pass (2.1:1)

9. Color in Context

See how our colors come together in real UI elements.

Fresh food
Stronger communities

Good morning!
Let's reduce waste together.

Completed

10. Best Practices

Guidelines for using color effectively.

- Use color with purpose, not decoration.
- Maintain sufficient contrast (WCAG 2.2 AA).
- Be consistent across all platforms.
- Combine color with text or icons (not color alone).
- Use semantic colors for status and feedback.
- Test in both light and dark environments.

Small Actions Big Change

Good food brighter tomorrows.

04. Typography

Words that feed change.

Our typography is clean, friendly and highly readable — designed to communicate with clarity, build trust, and make every experience feel human and approachable.

CLEAR · FRIENDLY · MODERN · ACCESSIBLE · IMPACTFUL

1. Typeface Family

A modern, clean and versatile type system.

Primary Typeface

Inter

Clean, modern and highly readable for all digital experiences.

Aa Bb Cc Dd Ee Ff Gg Hh Ii Jj Kk
Ll Mm Nn Oo Pp Qq Rr Ss Tt Uu
Vv Ww Xx Yy Zz
0123456789

Regular · Medium · Semibold · Bold

Secondary Typeface

Lora

A warm and expressive serif for headings and special content.

Aa Bb Cc Dd Ee Ff Gg Hh Ii Jj Kk
Ll Mm Nn Oo Pp Qq Rr Ss Tt Uu
Vv Ww Xx Yy Zz
0123456789

Regular · Medium · Semibold · Bold

Why these fonts?

- Highly readable on all screens
- Friendly and human in tone
- Works across web, iOS and Android
- Supports multiple languages
- Accessible and WCAG compliant

2. Type Scale

A clear hierarchy for consistent communication.

H1	**The food we save today feeds a brighter tomorrow.**	Inter Bold 56px / 120%
H2	Good food brings people together.	Inter Semibold 40px / 120%
H3	Stronger communities, less waste.	Inter Semibold 32px / 120%
H4	Fresh food. Real impact.	Inter Medium 24px / 130%
H5	Small actions create big change.	Inter Medium 20px / 140%
Body	Food connects us all. By reducing waste, we create healthier communities and a kinder planet.	Inter Regular 16px / 160%
Small	Together, we can make sure good food always finds a home.	Inter Regular 14px / 160%
Caption	Pick up · Share · Nourish	Inter Regular 12px / 160%

3. Text Styles in Use

Real examples from the app.

FRESH FOOD NEAR YOU

Good food should be shared, not wasted.

Fresh Food Happier People

Discover surplus food from local businesses and help build a stronger, healthier community.

Find Food Nearby → · How It Works

Food pickup ready! 2 min ago
Your reserved food is ready for pickup at Green Bites Café.

"A kinder tomorrow is written in the choices we make today." — Surplus → Served

4. Typographic Pairing

A balanced combination for clarity and character.

Inter + Lora

We use Inter for everyday interface text and Lora for impactful headlines, quotes and special content.

REAL IMPACT

Local food. Lasting change.

Good food today. A brighter tomorrow for all.

5. Alignment & Readability

Best practices for comfortable reading.

Left aligned
Easiest to read and more accessible.

Generous line height
Improves readability (160% for body).

Optimal line length
Keep text between 45–75 characters.

6. Do's and Don'ts

Keep our typography consistent and effective.

- ✓ Use the defined type scale.
- ✓ Maintain consistent font weights.
- ✓ Ensure good contrast.
- ✗ Don't use too many font styles.
- ✗ Don't use ALL CAPS for long text.
- ✗ Don't stretch or distort type.

05. Icons

Simple symbols. Big meaning.

Our icons are designed to be clear, friendly and universally understandable. They help people take action, navigate easily, and feel confident while doing good.

CLEAR · CONSISTENT · FRIENDLY · INCLUSIVE · IMPACTFUL

1. Icon Philosophy

Our icons are designed with purpose — to guide, inform and inspire.

Meaningful — Every icon has a clear purpose.

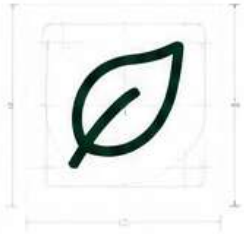

Human — Friendly and approachable.

Simple — Clean and easy to recognize.

Universal — Works across cultures and ages.

2. Icon Style

A clean, consistent and modern visual style.

- 2px stroke (regular)
- Rounded stroke caps
- Consistent corner radius
- Pixel perfect on all sizes
- Filled and outline variants
- Accessible contrast
- Meaningful and familiar forms

3. Core Icons

Frequently used icons across the app.

Home · Search · Add Food · Donate · Receive
Map · Calendar · Bell · Message · User
Leaf · Truck · Package · Share · Settings

4. Filled Variants

Filled icons for emphasis (active states, primary actions).

Home · Search · Add Food · Donate · Receive
Map · Calendar · Bell · Message · User
Laaf · Truck · Package · Share · Settings

5. Category Icons

Icons for different areas and features.

Food · Fruits & Veg · Bakery · Meals · Beverages · Dairy
Restaurants · Cafés · Grocery · Events · Community · Impact
Waste Reduction · Recycle · Verified · Time · Location · Help

6. Size Guide

Our icons scale beautifully across all devices.

On a 24px grid

- Aligned to pixel grid
- Clear at small sizes
- Maintains visual weight
- Works in light and dark themes

7. Usage Examples

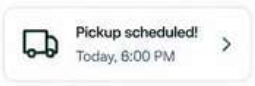

Icons in real UI contexts.

Navigation Bar

Primary Button

Status Notification

9. Icon Set Availability

Available in muitiple formats for easy use.

Figma (library) · SVG (scalable) · PNG (multiple sizes) · React (ready to use) · Download (all formats)

07. Patterns

Proven solutions for real-world journeys.

Our design patterns combine common UX solutions with the unique needs of food rescue — making it simple to give, receive, **and make** an impact.

USER-CENTRED · CONSISTENT · SIMPLE · SCALABLE · IMPACTFUL

PEOPLE
FOOD
COMMUNITY
PLANET

SIMPLE PATTERNS REAL CHANGE.

1. Onboarding Pattern

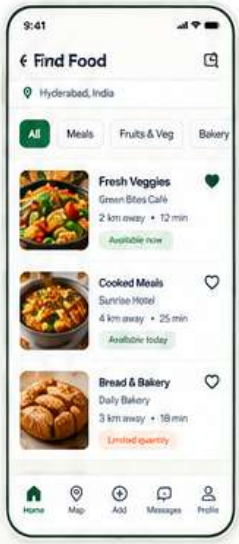

A quick and friendly way to get users started.

1. **Welcome** — Introduce the purpose with a clear, friendly message.
2. **Choose Role** — Let users select their role early for a personalized experience.
3. **Enable Essentials** — Request key permissions (like location) at the right time.

2. Discovery Pattern

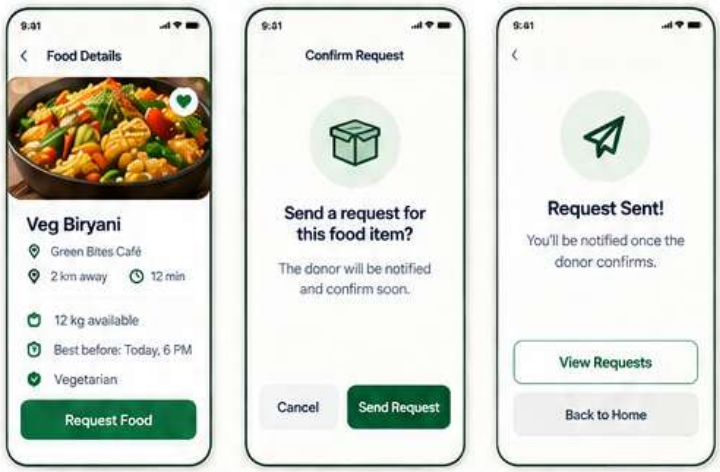

Help users find relevant food quickly.

- **Search & Filter** — Find by food type, distance, availability, or donor type.
- **Clear Information** — See distance, quantity, and timing at a glance.
- **Visual First** — Use appetizing images to create trust and appeal.
- **Save for Later** — Let users save items they're interested in.
- **Real-time Status** — Show live availability to avoid disappointment.

3. Request & Confirmation Pattern

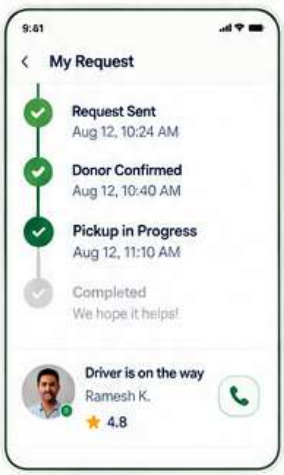

A smooth flow from request to confirmation.

1. **View Details** — Clear and complete information builds trust.
2. **Confirm Request** — A simple confirmation step prevents accidental requests.
3. **Success Feedback** — Reassure users with a clear success message and next steps.

4. Status Tracking Pattern

Keep users informed at every step.

Live updates build trust and reduce uncertainty.

5. Empty States

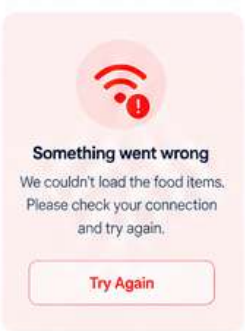

Turn empty moments into helpful guidance.

Be empathetic, helpful and always give the next best action.

6. Error Handling Pattern

Clear, friendly and solution-oriented.

- **Use plain language** — Avoid technical jargon.
- **Suggest next steps** — Help users fix the issue.
- **Maintain a positive tone** — Be encouraging and human.
- **Use clear visuals** — Icons help users understand quickly.

7. Confirmation & Success Pattern

Celebrate impact and build emotional connection.

- **Celebrate the action** — Reinforce positive behavior.
- **Show impact** — Let users know the real world effect.
- **Encourage next step** — Inspire continued participation.
- **Keep it shareable** — Make it easy to share the good news.

8. Cross-Platform Pattern

Consistent experience across devices.

- Same patterns, everywhere
- Optimized for mobile, tablet and desktop
- Consistent behaviour and interaction
- Accessible across all devices

PART 1

Onboarding & Authentication

A smooth and welcoming start to create trust, explain the purpose, and help users get to their first meaningful action quickly.

SIMPLE · TRUSTWORTHY · INCLUSIVE · USER-CENTRIC

1. Splash Screen

Brings the brand to life with a simple, memorable entry point.

App logo, tagline and visual that reflects the mission.

2. Onboarding Screens

Quickly communicate the value and how it works.

Highlight the problem and the purpose.

Show the social impact and community.

End with a positive, inspiring message.

3. Role Selection

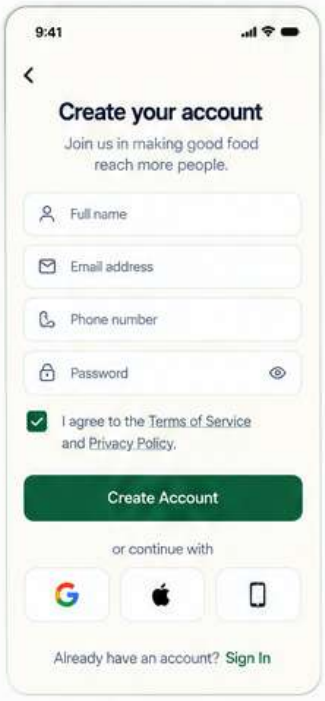

Let users choose how they want to use the app.

Clear role-based entry for a personalized experience.

4. Sign Up

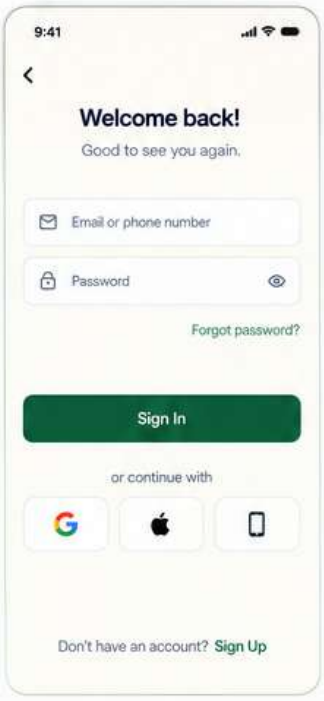

Simple and fast registration.

Minimal fields with social login options for faster access.

5. Sign In

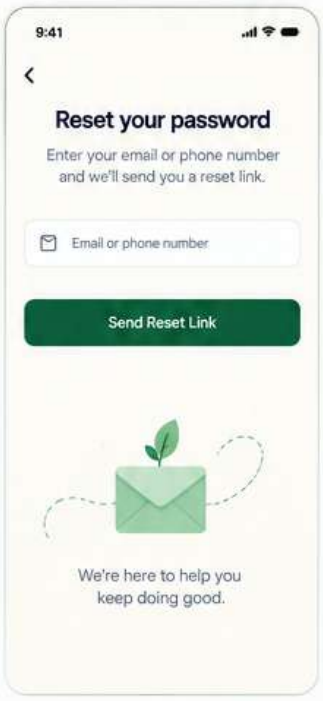

Quick and secure access.

Clean and focused sign in experience.

6. Forgot Password

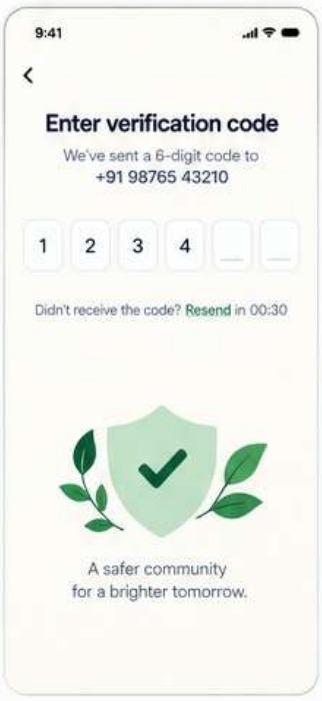

Help users regain access easily.

Clear guidance and reassurance.

7. Verification (OTP)

Ensure account security.

Simple and secure verification flow.

08. Screens PART 2

Browse, Search & Food Discovery

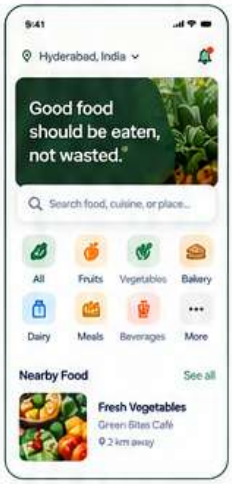

These screens help users explore available food, find nearby options, view details, and take action — making surplus food easily accessible.

INTUITIVE · DISCOVERABLE · LOCATION-AWARE · ACTION-DRIVEN

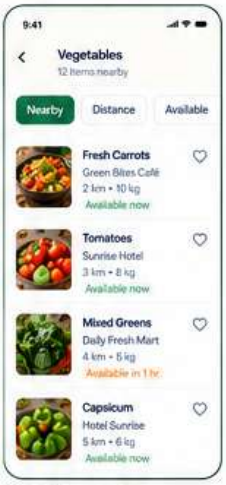

1. Home & Browse

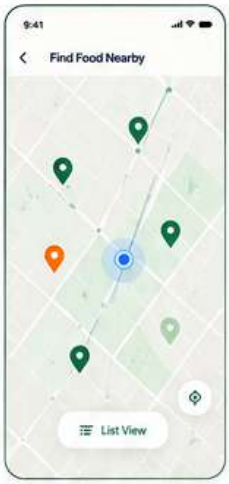

Help users quickly discover available food near them.

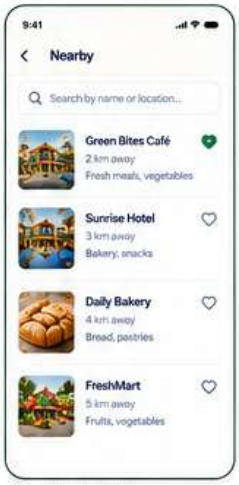

1.1 Home Screen
Overview of available food and quick categories.

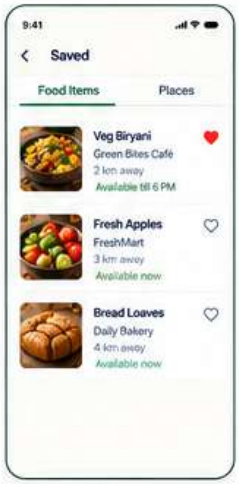

1.2 Category Screen
Browse food by category with key details.

1.3 Map View
Visualize nearby food locations on a map.

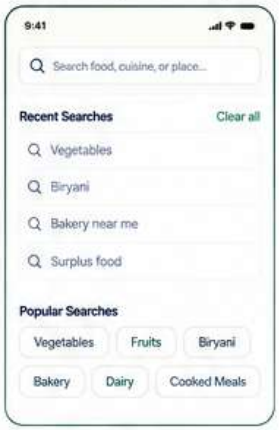

1.4 Nearby List
See a list of nearby donors with distance and items.

1.5 Saved Items
Quick access to saved food items and places.

2. Search & Filters

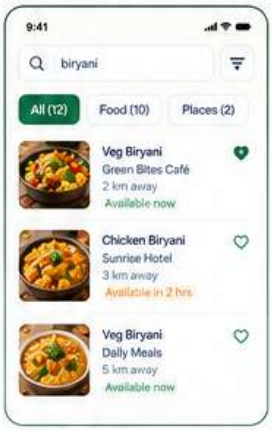

Make it easy to find exactly what users need.

2.1 Search Screen
Search with recent and popular suggestions.

2.2 Filter Screen
Filter by type, distance, and availability.

2.3 Search Results
Show relevant results with key information.

2.4 No Results
A helpful empty state with suggestions.

2.5 Location Permission
Request location access with clear messaging.

3. Food / Item Details

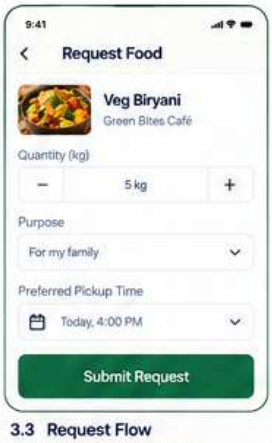

Give users all the information they need before taking action.

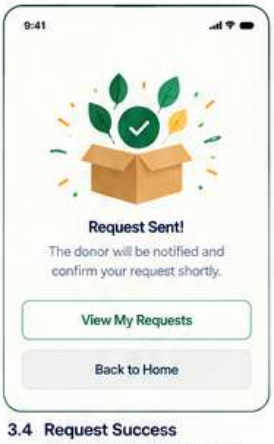

3.1 Item Detail
Complete information about the food item.

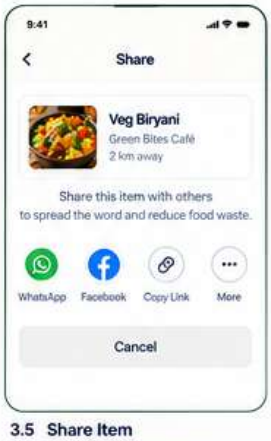

3.2 Donor / Place Detail
Information about the donor and their available items.

3.3 Request Flow
Simple form to request food.

3.4 Request Success
Confirmation with next steps.

3.5 Share Item
Easy sharing options to increase impact.

PART 3

Request, Pickup & Delivery

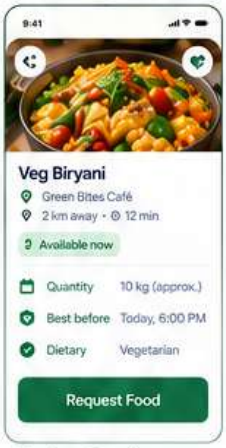

These screens show the core flow for requesting food, coordinating pickup or delivery, and completing the process — turning surplus food into real impact.

TRUSTED FLOW · REAL-TIME UPDATES · CLEAR COMMUNICATION · IMPACTFUL

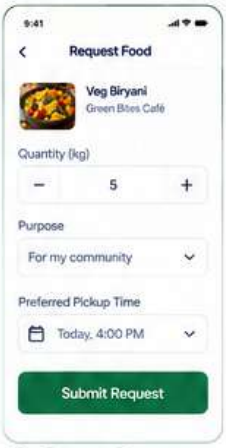

1. Request Flow

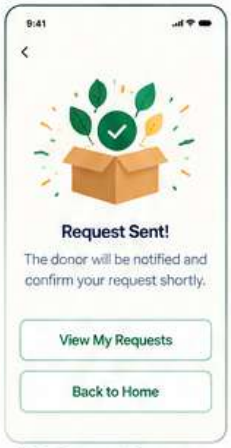

A simple flow to request available food.

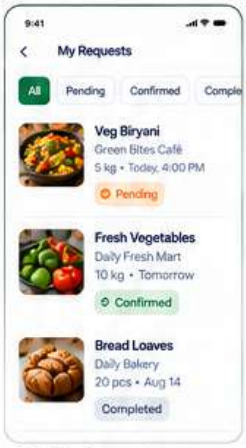

1.1 Item Detail
View food details and availability.

1.2 Request Form
Fill in details and submit request.

1.3 Request Success
Confirmation with next steps.

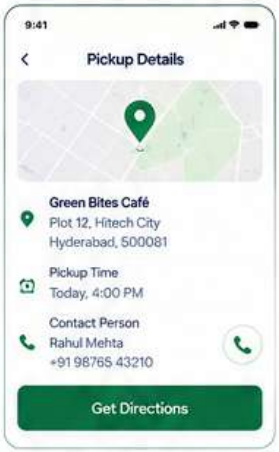

1.4 My Requests
Track the status of your requests.

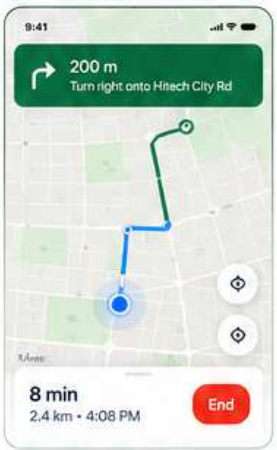

1.5 Request Details
See full details and status information.

2. Pickup & Delivery

Coordinate pickup or delivery with real-time updates.

2.1 Pickup Details
View location, contact and directions.

2.2 Live Navigation
In-app navigation to pickup location.

2.3 Verify & Collect
Ensure quality and confirm pickup.

2.4 In Transit
Real-time tracking and status updates.

2.5 Delivery Success
Confirmation and impact summary.

3. Notifications & Communication

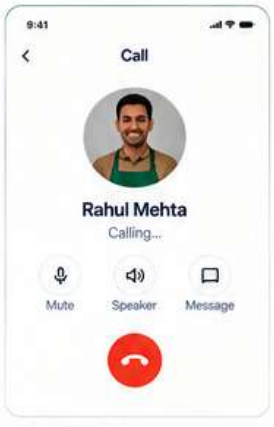

Keep everyone informed at every step.

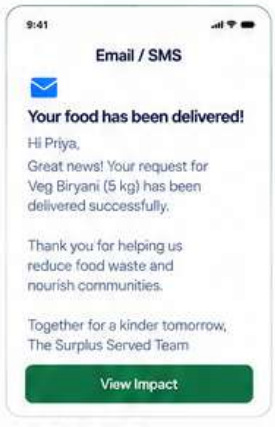

3.1 Notifications
Real-time updates for important events.

3.2 In-app Chat
Direct communication between donor and receiver.

3.3 Voice Call
Quick calling option for urgent coordination.

3.4 Email / SMS
Important updates via email or SMS.

3.5 Impact Summary
Showcase the positive impact of each delivery.

DESIGN SYSTEM v1.0

10. Accessibility

An inclusive app for a kinder tomorrow.

We design for everyone — regardless of ability, age, language or device — so that food rescue is accessible to all. Accessibility is not an add-on, it's a core part of our mission.

INCLUSIVE · USABLE · EQUITABLE · COMPLIANT · HUMAN-CENTRED

1. Our Commitment

Accessible. Inclusive. For a stronger tomorrow.

People of all abilities · All age groups · All languages · All devices · All communities

"A more inclusive food system leaves no one behind."

2. Standards & Compliance

We follow global accessibility standards.

WCAG 2.2	ADA	EN 301 549	Section 508
Web Content Accessibility Guidelines	Americans with Disabilities Act	European Accessibility Standard	U.S. Federal Accessibility Standard

We aim for WCAG 2.2 AA compliance across all platforms.

3. Inclusive Design Principles

Design with empathy. Build for everyone.

- **Perceivable** — Information is easy to see, hear and understand.
- **Operable** — Navigation works for all input methods.
- **Understandable** — Clear language and predictable interactions.
- **Robust** — Works across devices, assistive technologies and future needs.

4. Visual Accessibility

Clear, readable and comfortable for all.

Aa — Normal Text — Good contrast (AA compliant)

Aa — Low Contrast — Poor contrast (difficult to read)

Adjust Text Size

A A A

Scales up to 200%

Color Blind Friendly

Meaning is not conveyed by color alone.

5. Keyboard Navigation

Use without a mouse.

1 → Tab → 2 → Tab → 3 → Tab → 4

- Logical tab order
- Visible focus indicators
- All interactive elements accessible
- Skip to main content link

Button

6. Screen Reader Support

Works with assistive technologies.

"Donation details. Veg Biryani. 25 servings. Pickup at: 10 AM. Button, Request Food."

- Semantic HTML and ARIA labels
- Meaningful alt text for images
- Clear and descriptive link and button text
- Screen reader tested (VoiceOver, TalkBack, NVDA)

7. Motor Accessibility

Designed for all interaction styles.

- Large Tap Targets (min 44 × 44 px)
- Works with external keyboards
- Voice input supported
- Simplified flows and fewer complex gestures

8. Cognitive Accessibility

Simple, clear and supportive.

- Simple Language
- Consistent Navigation
- Clear Instructions
- Helpful Error Messages
- Progress Indicators

"Clear design helps everyone, not just people with disabilities."

9. Multilingual Support

For a diverse and global community.

EN English · हिं हिंदी · తెలుగు Telugu · اردو Urdu · ES Español · FR Français

... and more languages as we grow.

10. Real Device Testing

Tested with real people, real scenarios.

- Mobile (iOS & Android)
- Desktop (Windows & macOS)
- Tablet (iPad & Android)
- Assistive Tech (VoiceOver, TalkBack, NVDA)

11. Continuous Improvement

Accessibility is an ongoing journey.

- Regular Accessibility Audits
- User Testing with Diverse Communities
- Track & Resolve Accessibility Issues
- Keep Learning and Improving

Different People Same Purpose Brighter Tomorrows.

DESIGN SYSTEM v1.0

11. Guidelines

Design with purpose. Build for real impact.

These guidelines help us create a consistent, user-friendly and trustworthy experience across the Surplus Served platform. By following these principles, we ensure our product is accessible, inclusive, safe and effective for everyone.

CONSISTENT · USER-CENTRED · INCLUSIVE · TRUSTWORTHY · IMPACT DRIVEN

1. User-Centred Design
Design for real people and real needs.

- Understand user needs and contexts
- Design for simplicity and clarity
- Support multiple user roles (Donor, Receiver, Volunteer, Admin)
- Reduce cognitive load
- Test with real users

2. Consistency
Keep the experience familiar and seamless.

Primary Button
Secondary Button
Tertiary Button

- Use design system components
- Maintain consistent patterns
- Follow established naming and structure
- Keep visual language unified across platforms
- Ensure predictable behaviour

3. Clarity & Simplicity
Make it easy to understand and act.

Mixed Vegetables
Surplus from Green Bites Café
Jubilee Hills, 2.4 km
Pickup today, 4:00 PM
10 kg (25 servings)
Request Food

- Use simple, clear language
- Highlight key information
- Avoid clutter and unnecessary steps
- Use familiar icons and labels
- Guide users with clear CTAs

4. Trust & Transparency
Build confidence through honesty and openness.

Safe Food
Trusted People
Stronger Communities

- Show verified profiles and badges
- Provide clear food safety information
- Be transparent about allocation process
- Communicate status updates in real time
- Handle errors and issues openly

5. Inclusivity & Accessibility
Design for everyone, everywhere.

Accessible · Multi-language · All age groups · All devices

- Follow WCAG 2.2 AA standards
- Ensure good color contrast
- Support multiple languages
- Design for different abilities and devices
- Use inclusive imagery and language

6. Safety First
Prioritize food safety and user well-being.

- Follow food safety guidelines
- Show clear expiry and handling info
- Display safety tips in the app
- Allow users to report concerns
- Provide educational content

7. Error Handling
Be helpful when things go wrong.

Something went wrong
We couldn't load the donations. Please try again.
Try Again

- Use clear and friendly error messages
- Explain what went wrong
- Suggest next steps
- Provide options to retry or get help
- Avoid technical jargon

8. Performance & Reliability
Keep the app fast and dependable.

Fast. Reliable. Always On. For Greater Impact.

- Optimize for fast load times
- Ensure high uptime and stability
- Handle high traffic and peak usage
- Provide offline support where needed
- Show loading states and progress indicators

9. Content Guidelines
Use consistent, inclusive and positive content.

Do	Don't
Use positive and respectful tone	Use negative or fear-based language
Be clear and concise	Make unrealistic promises
Use inclusive and neutral language	Use slang or unclear terms
Show real people and diverse communities	Show waste or unsafe food images
Focus on impact and solutions	Exclude any community or group

10. Data Privacy & Security
Respect and protect user data.

- Follow data protection laws (e.g. GDPR, DPDP)
- Collect only necessary data
- Be transparent about data usage
- Provide clear privacy settings
- Keep user data secure

11. Sustainability & Impact
Design for a better tomorrow.

Every design choice can create a bigger impact.

- Encourage responsible food sharing
- Highlight environmental benefits
- Show impact metrics
- Promote sustainable behaviours
- Design for long-term positive change

12. Continuous Improvement
Learn, iterate and grow.

- Gather user feedback
- Monitor usage and impact
- Identify pain points and opportunities
- Iterate based on data and insights
- Keep evolving to serve communities better
